

Medium Kitchen

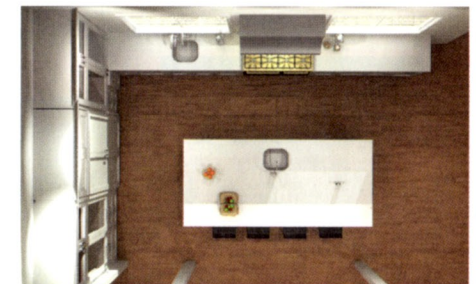

Heart of the Home

Inspired by the historic wooden window screens from the client's ancestral home, the design of the kitchen cabinetry's fretwork came into place. This design motif is repeated on a different scale in the kitchen's marble backsplash and its curves are echoed in the silhouette of the glass pendant lighting. To achieve an inviting, updated style, gleaming white counters were balanced with gradations of warm gray cabinetry, walls, and trim. Black granite insets in the backsplash complement the black gloss enamel range, which serves as the anchor of the room. Mixed metals, mirrored accents and the mother-of-pearl insets on the backsplash provide jewel like surprises throughout the kitchen. The huge island with a seamless counter holds adequate room for family and friends to dine or help with meal preparations and also engage in hobbies. Furthermore, carefully planned base cabinet storage makes access to everyday items easy for even the four-year-old in the family. With upgraded luxury appliances, extensive counter space and seating for four at the island, this gourmet kitchen offers a peaceful, modern and luminous setting to spend that quality time with loved ones.

Products

Dishwasher: Miele Futura; Garbage Disposal: Insinkerator & Waste King; Microwave Oven: Sharp microwave drawer; Range/Oven: La Cornue ComuFe 110 range w/double ovens; Refrigerators: Sub-Zero; Ventilation: Vent-A-Hood; Water Delivery System: Mountain Plumbing; Special Features: Vitamix blender, Jura Capresso coffee maker; Cabinetry: Conestoga Valley Custom Kitchen, Fretworks Designers, Glassworks of Summit; Countertops: Silestone; Faucets/Fittings: MGS; Lighting: LeGrand Adome light switches/plates, Hafele tape, LED, Tech Lighting-Parfum, Grande glass pendants; Sinks: Elkay; Tile: Artistic Tile; Windows: Jeld Wen; Special Features: Stealth Acoustics hidden speakers, Newport Brass soap dispenser, Hamilton Sinkler drawer & refrigerator pulls
